Department of Anthropology Rutgers University *Self-deception and Humor.* Distinguished lecture series October 15, 2013

Department of Anthropology Rutgers University *The Evolution of Virulence.* Guest lecture for Rutgers Signature course 'Extinction' November 17, 2012

Department of Anthropology Rutgers University *Sexually Antagonistic Genetic effects.* Guest Lecture for Human Evolutionary Genetics September 23, 2009

Department of Ecology and Evolution Rutgers University *Evidence for Sexual Antagonistic Effects Found in Icelandic Population.* Ecology and Evolution Spring Lecture Series May 7, 2008

RESEARCH EXPERIENCE

University of Turku Columbia, MO
Postdoctoral Fellowship, Anthropology 2017-Present
Supervise large web based demographic dataset of Finnish evacuees in World War II

- University of Missouri** Columbia, MO
Postdoctoral Fellowship, Anthropology 2014-2017
Organize, manage and ultimately make public a large-scale demographic and ethnographic database of Yanomamö Indians collected over a 25 year period. Analyze database and synthesize results into publications.
- University of Missouri** Columbia, MO
Amazon Mechanical Turk 4/2016
Collected data from a Qualtrics generated survey on explicit and implicit offspring sex preferences from over 1,000 subjects.
- DeCode Genetics** Reykjavik, Iceland
Dissertation Research 9/2010-7/2011
Used Íslendingabók (a genealogical database for the population of Iceland ranging from 871 A.D. to the present) to analyze the heritability of lifespan and fertility.
- Jamaican Symmetry Project** Southfield, Jamaica
Field Site Manager 2006-2010
Supervised field site and collected data including DNA, anthropometric measures, questionnaires, physiological traits and psychological data from local subjects.
- DeCode Genetics** Reykjavik, Iceland
Pilot Study for Dissertation Research October 2008
Used Íslendingabók (a genealogical database for the population of Iceland ranging from 871 A.D. to the present) to analyze the heritability of life history traits for dissertation research.
- Genetics Laboratory** New Brunswick, NJ
Lab Research 9/2006-5/2008
Extracted human DNA to supplement Jamaican Symmetry Project. Used laboratory techniques (e.g. PCR, gel electrophoresis, DNA cloning) to isolate and sequence areas of genome associated with Hox gene clusters and Androgen receptor genes.
- Family Court** New Brunswick, NJ
Sex-biased Parental Investment Research Spring, 2008
Analyzed documents related to divorce and custody hearings concerning the nature of parental investment. Used findings in dissertation.
- Facial Coding** New Brunswick, NJ
Behavioral Study on Humor Appreciation 3/2006-10/2007
Created and conducted a study on implicit preferences and humor appreciation using Facial Action Coding System (FACS).
